

Surface Cleaner

Introduction

Technical sprays are used in nearly all sectors of modern industry. These sprays are used for care and protection of surfaces, for cleaning, degreasing, dissolving and separating and are essential in daily business.

A claim cannot be derived from them. The user bears the only responsibility for non-appropriate or other than specified applications.

WEICON Surface Cleaner is used for cleaning and degreasing surfaces to be joined or sealed with WEICON adhesives and sealants. WEICON Surface Cleaner can be applied on materials like metal, glass, ceramic and most plastics*.

* Check surface compatibility prior to use

Applications

- Cleaning and degreasing of surfaces as preparation before bonding with WEICON adhesives
- Cleaning and degreasing of machine parts during service works

Technical data

Colour	colourless
Odour	solvent
Temperature resistance	--- °C
Shelf life (minimum)	24 months
Special features	Evaporates without residues

Processing

Spray in sufficient quantity onto the part to be treated and allow to react. If necessary, wipe off with a clean cloth. Repeat process as required. Avoid contact with plastic and varnished surfaces.

Storage

Pressurized container: protect from sunlight and do not expose to temperatures exceeding +50°C.

Note

The specifications and recommendations given in this technical data sheet must not be seen as guaranteed product characteristics. They are based on our laboratory tests and on practical experience. Since individual application conditions are beyond our knowledge, control and responsibility, this information is provided without any obligation.

We do guarantee the continuously high quality of our products. However, own adequate laboratory and practical tests to find out if the product in question meets the requested properties are recommended.
